

June 15th planning board meeting

Approved the agenda

Mike Bunker, spoke to us about building a foundation under what is now the screen porch on his property. 287 Flanders Pond Road. He would like to change the roof line and needs permission because its closer than 100 feet from the water.

Unanimous vote to accept the non-conforming permit.

Checked with the town officer on what else was needed from us and it was decided that there is nothing further at this point.

Meeting adjourned at 5:13 pm
